

TOMBSTONE GUN GRIPS

PO Box 2171, White City, OR 97503

www.TombstoneGrips.com

Dave@TombstoneGrips.com

Tombstone Gun Grips are individually molded from high strength polyurethane for over 400 different models of handguns, plus rifle and shotgun grip caps and buttplates. You can add optional colors as well as translucent pearl, amber and walnut burls, and opal appearance (deep, multi-layered grips you can "see into" as the colors change with the light).

A tracing of your existing grip or frame is useful in helping you choose the correct grip size. The warranty offered depends on whether or not you wish to send a tracing with your order (since without the tracing, there is no way to check on your choice of size or shape for a given order to make sure it fits your gun).

Please READ the information at

www.TombstoneGrips.com/terms.htm
BEFORE placing your order!

- * Semi-finished grip kits for **over 400** vintage, discontinued and modern handguns!
- * Economically priced because you do the final fit and finish!
- * Save up to half the cost of finished grips with 20-30 minutes sanding and fitting (full instructions provided).
- * Custom made using tough, 2000-psi break resistant polyurethane with molded-in color, simulates many other materials. Withstands up to 450 degrees F.
- * Can be carved, scrimshawed, easily drilled and sanded to fit precisely on your gun, or to make finger grooves.
- * Available in simulated ivory, aged ivory, black hard rubber, stag horn, pearl, wood appearance or any color of the rainbow!
- * Medallion insets available including Texas Star, Gold Cross, and others shown on the webstore. (Only medallions listed are available for installation -- all are round.) In-stock hardware & medallions ship within 10 days.

To keep costs low, orders are taken only on-line at the secure web store:
www.TombstoneGrips.com

You can use Visa, Mastercard, or PayPal or send a check or money order.

Delivery averages 3-4 months for grips. Each grip is made by hand in order of receipt, to your specific color and options.
