Dave@TombstoneGrips.com

Semi-finished grip kits for **over 200** vintage and modern handguns! Economically priced because you do the final fit and finish!

Save over the cost of finished grips with from ten to thirty minutes sanding and fitting, and get a perfect fit for your gun (full instructions provided). Many options available on-line.

Tough (3000 psi tensile strength), solid (no fragile hollow frames), heat resistant (over 350-deg F) polyurethane resins simulate the fragile pearl, ivory or wood with no cracking and chipping issues.

Made to your custom order for color or material simulation, with optional medallion installation. Mounting hardware kits available separately, or installed in two-piece grips at no extra cost

Note: Send a pencil tracing around your existing grips, or make an index-card cut-out that fits your gun like a grip, so the right mold can be used for your individual gun.

See www.TombstoneGrips.com for more information...

Ebony

Tombstone Gun Grips are individually molded to your order for over 200 different models of handguns, plus rifle and shotgun grip caps and buttplates. You can add optional solid colors as well as translucent pearl, abalone and opal appearance.

Prices range start at \$34.00 depending on the complexity of the mold and the kind of color or optional medallions you wish to have inset.

Ivory or Aged Ivory colors are base grip price.

Medallions are \$14/pair (installation is free, or you can do it yourself).

Solid colors of your choice are \$6 plus base price of grip.

Pearl and translucent effects are \$12 plus base price of grip.

Staghorn effect is only available on selected grips as it is built into the mold. Staghorn grips are \$40 and have three individual layers of color embedded into the surface.

You can order ANY grip in ANY color: Visa, MC, or Paypal online!
